## PROJECTS

### Little Lemon Restaurant

<https://tinyurl.com/Isaiah-Little-Lemon>

- Little Lemon Restaurant's website is a single-page application that allows users to utilize its booking form to reserve a table, which is connected to an API that fetches available times based on the date selected. The website was crafted with the core principles of UI/UX design in mind and the agility of a single-page application. Built with React.js, HTML, and CSS

### Personal Website

<https://isaiahgoodridge.github.io/personal-website-1/>

- Isaiah Goodridge's personal website provides information about his personal journey into web development as well as his top, up-to-date projects and technologies learned. Isaiah's website takes a modern, clean approach to building a page that is informative, easy to navigate, and uses satisfying animations to provide the user with an enjoyable experience that is not distracting from the main content. Built with HTML, CSS, and JavaScript.
